

I call You God

Mads Andersen

Verse

When people ask me
What I believe
I tend to answer You
Fear and confusion
Then pulls us apart
They can't believe it's true

Bridge

Labels fade and
Giving You names
Seems unimportant to me

But Living, giving
And loving ourselves
Sharing Your light with the world

Chorus

I call You God, I call You Lord
For there is not a name that will
Ever capture You God
The Great I Am
And You are my friend
Until the end

C-part

If You never change they why should Your name
You were there in beginning
You will stay till the end
For all You have done
All I've got is this song
